

**Part Number: RSH-33**  
**Magnet - Bare**  
**Product Data Sheet**

**PICTURE**

**DIMENSIONS**

**✓ RoHS Compliant**

Drawings not to scale.  
 All dimensions in inches (mm) nominal.

**SPECIFICATION**

Type	Rectangular
Magnet Material	Alnico/Alcomax
Typical Gauss reading, direction A at 3mm	200 - 250
Operating temperature max.	550°C
Length	0.768"
Height	0.126"
Width	0.126"

Alnico/Alcomax is a good general purpose material that can be machined or cast to the required shape before magnetizing. The material has the best temperate coefficient of all permanent magnets. The high nickel content results in good corrosion and oxidation resistance.
